

# Making your MOSQUITOES

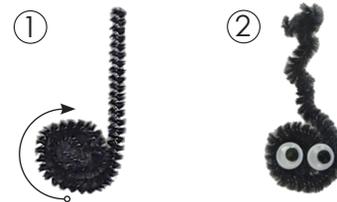

## WHAT'S IN YOUR KIT?

- 1 long white pipe cleaner
- 7 short black pipe cleaners
- 2 small eyes
- 2 medium eyes
- 2 large eyes
- 1 bead (the 'egg')

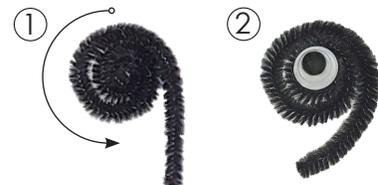

## Make a mosquito LARVA

1. Roll the end of one black pipe cleaner towards the middle. Bend the rolled part a little sideways.
2. Add two small googly eyes. Make the tail part of the larva a little wiggly.

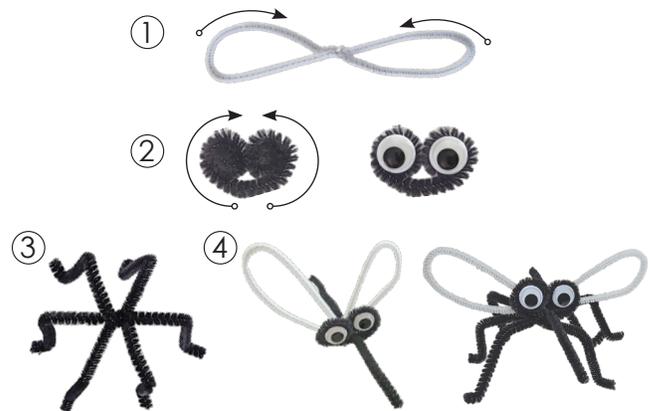

## Make a mosquito PUPA

1. Roll the end of one black pipe cleaner almost all the way to the other end.
2. Add two medium googly eyes; one on each side. Make the tail part of the pupa a little curved.

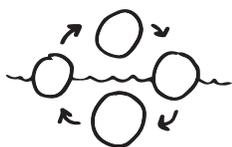

## Make a mosquito ADULT

1. Twist both ends of white pipe cleaner to the middle to make wings.
2. Roll both ends of one black pipe cleaner towards the middle. Add two large googly eyes.
3. Twist together three black pipe cleaners at the middle and bend them to make legs. (Insects have six legs!)
4. Twist the last black pipe cleaner to attach the eyes and wings together and then attach to the legs. Keep the end sticking out to make the mouth.

Use your mosquitoes to show the life cycle.

You can read a book with your mosquito.

Or play hide-and-seek!

What else can you do with your mosquito?

If you have problems with real mosquitoes at your house, San Mateo County Mosquito and Vector Control District can help!

# 自制蚊子

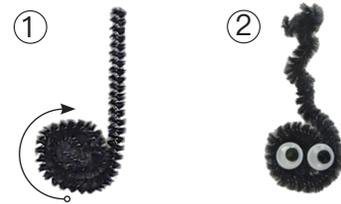

## 手工材料包里都有什么？

- 1 根长的白色毛管
- 7 根短的黑色毛管
- 2 个小型的眼睛
- 2 个中型的眼睛
- 2 个大型的眼睛
- 1 个珠子 (蚊子卵)

## 自制一个蚊子幼虫 LARVA

1. 把黑色毛管的一端朝中间卷起，把卷起的那一部分稍微往侧边弯曲。
2. 加上两个小型的眼睛，把尾巴的部分扭的弯弯曲曲。

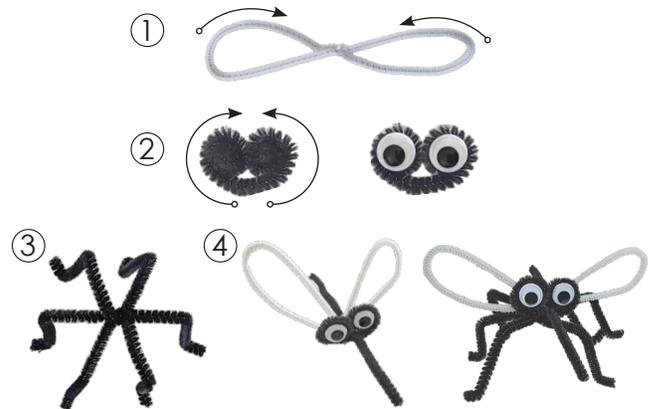

## 自制一个蚊子蛹 PUPA

1. 把黑色的毛管从一端卷起，只留下一点尾巴。
2. 加上两中型的眼睛，两侧各一个。把蚊子蛹的尾巴部分稍微弯曲。

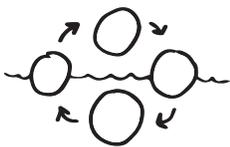

## 自制一个蚊子的成虫 ADULT

1. 把白色的毛管两端往中间扭转，做成翅膀。
2. 把黑色的毛管两端从向中间卷起，粘上两个大的眼睛。
3. 把三个黑色毛管从中心扭在一起，把这些毛管都弯成昆虫腿的形状（昆虫有六条腿）。
4. 把最后一支黑色的毛管用来连接眼睛和翅膀，并接上腿。把一端留在外面用来做嘴巴。

用你做的蚊子来展示它们的生命周期。

读一本跟蚊子有关的书！

玩躲猫猫！一个人把你做的蚊子藏起来，另一个人找。

你还可以用你做好的蚊子做什么呢？

如果您家中有真正的蚊虫害问题，圣马刁县蚊虫害病媒控制中心能帮助您！

# Mosquito Life Cycle

Color the water. Put your pipe cleaner mosquitoes in order in the circles to show the life cycle.

# 蚊子的生命周期

在纸上的水中填上颜色。用你做好的毛管蚊子按照它们的生长顺序排列好。

Mosquitoes need water to grow.  
Dump out water every week to keep the mosquitoes from growing!

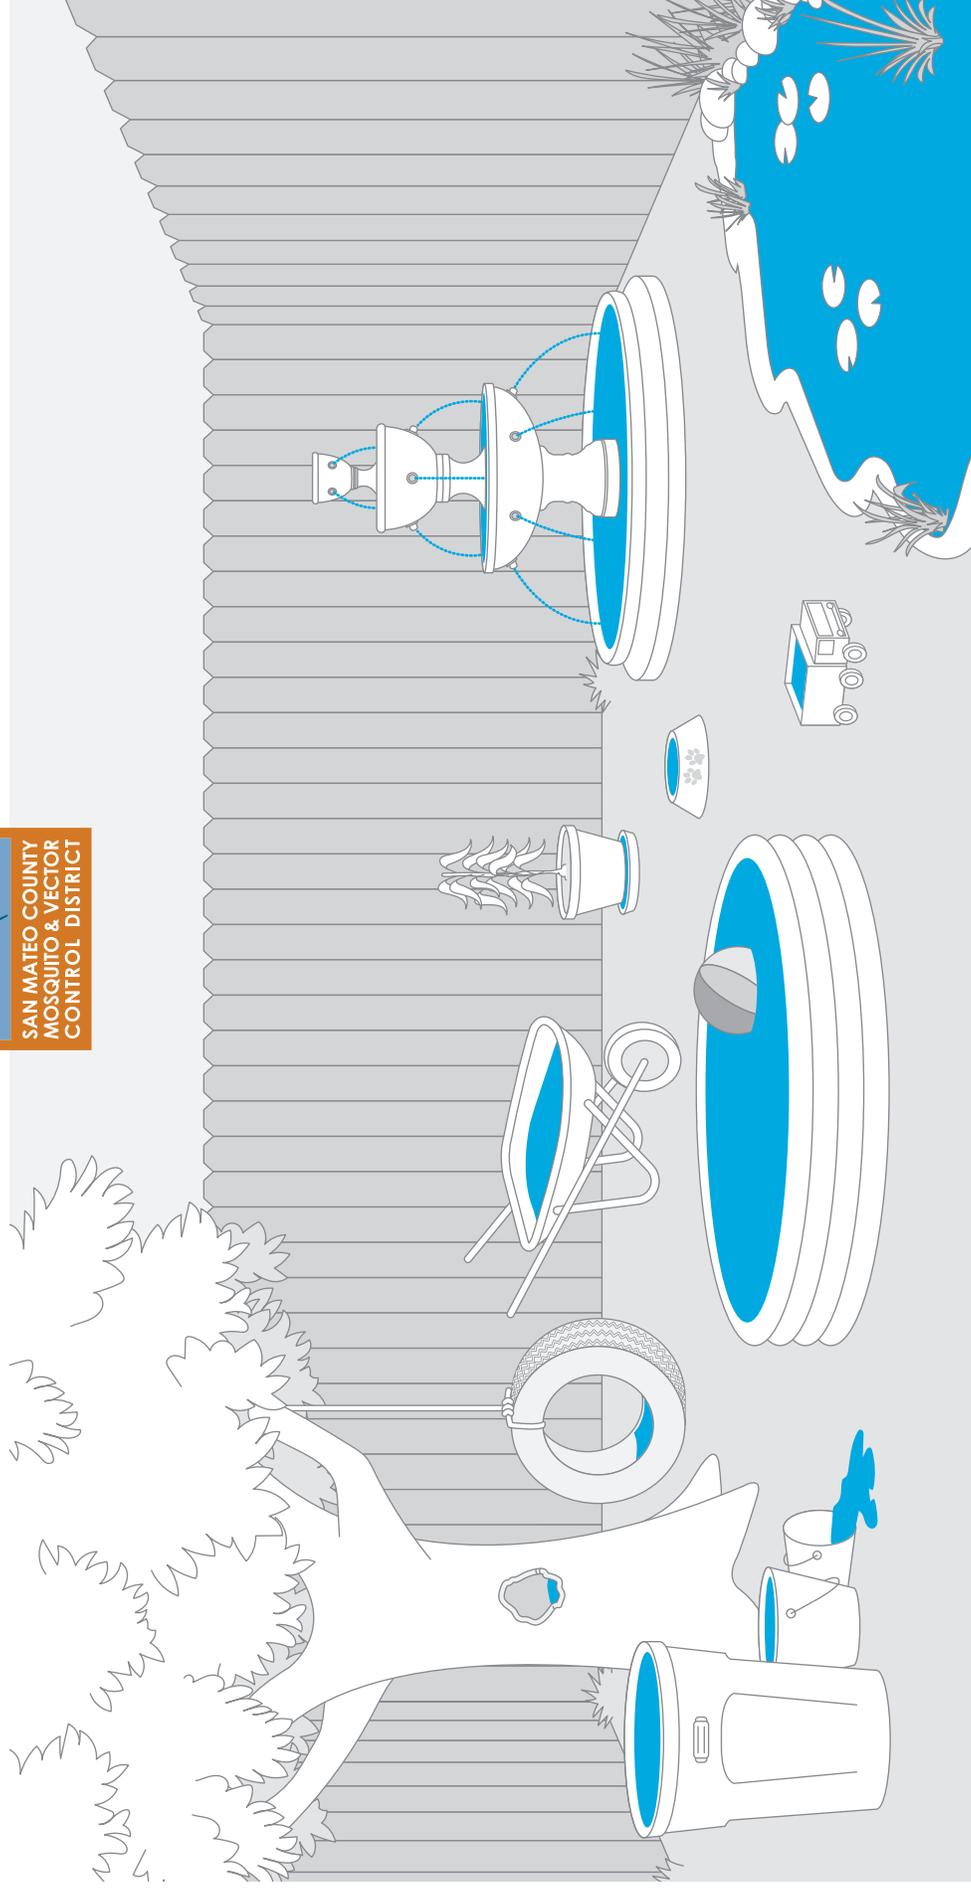

蚊子的生长需要水源，每周把水倒干净才能防止蚊子生长！

Check around your house for these things that can hold water and grow mosquitoes.

**DUMP OUT THE WATER EVERY WEEK!**

检查你家周围这些能够盛水，  
并可能孳生蚊子的器皿。  
每周把水倒干净！

After you look for mosquitoes, ask an adult to help dump the water! If the water is too big to dump, an adult can call the District for help to keep the mosquitoes from growing.

在你找过蚊子之后，请大人们帮忙把水倒干净！  
如果水量太大，没有办法倒掉，大人可以打电话请  
控制中心帮忙倒水，确保蚊子不会孳生。
