

**SPECIAL CONFERENCE
OF THE BOARD OF TRUSTEES
LOCATION: TELECONFERENCE – SEE BELOW
December 9, 2020 4:00-5:00 PM
AGENDA**

TECHNICIAN PRESENTATIONS

What to expect

Trustee Field Day is an opportunity for members of the Board of Trustees to meet the technician that serves their city and get a better understanding of how the San Mateo County Mosquito and Vector Control District operates. Familiarity with the District’s staff, facilities, and programs is crucial to preparing trustees to provide effective governance. You can expect specifics about mosquito control, surveillance, service request information and more.

On a normal year, trustees are invited to meet in person with their city’s technician for a PowerPoint presentation about issues currently affecting mosquito and vector control in their city and the county in general. Due to the COVID-19 pandemic, in-person meetings will not be possible this year. However, trustees are invited to meet with their technician over Zoom. Please find the unique link assigned to you and your technician below. Clicking on the “Zoom Room Link” following your name will take you directly to the technician’s Zoom room.
