**Position:** Seasonal Laboratory Assistant **Wage:** \$26 - \$31 per hour (DOE)

**Hours:** Monday – Friday, 8:00am—4:30 pm

Dates: May/June through October/November (season length varies but will not exceed 6 mo.)

#### **Definition:**

The Seasonal Laboratory Assistant, under direct supervision of the Laboratory Director and/or Vector Ecologists, shall assist laboratory staff in all aspects of in-lab and laboratory-related field work, including performing surveillance for invasive Aedes mosquito species through a countywide trapping program.

## **Qualifications:**

- Minimum of High School Graduate or equivalent. Bachelor's degree with coursework in Biology preferred.
- 18 Years of age or over
- Ability to use a dissecting microscope.
- Ability to use a binomial key to identify insects or other organisms.
- Intermediate level experience in using computer software including Microsoft Word and Excel.
- Valid California Driver's License and ability to qualify for coverage under the District's insurance with the Vector Control Joint Powers Agency. A District vehicle will be provided for this work.
- Ability to safely drive a light duty pickup truck to navigate city streets, freeways, open spaces, and other terrain to access field sites.
- Ability to pass a pre-employment background check, drug test and a physical ability test.

## **Duties and Responsibilities: (Position is entry level)**

#### Field Activities

- Drive to sites throughout San Mateo County to place and retrieve mosquito oviposition traps at selected sites (mostly cemeteries and plant nurseries).
- Set, check and maintain other types of mosquito traps.
- Drive to collect dead birds as part of the seasonal West Nile virus surveillance program.
- Accurately inform the public about basic District services when working in the field.

- Assist with care and maintenance of sentinel chicken flocks.
- Assist laboratory staff with other field activities including site investigations, rodent surveys and tick collections.

## **Laboratory Activities**

- Inspect ovicup filter papers for *Aedes* mosquito eggs using a dissecting microscope.
- Assist laboratory staff with sorting and identification of tick and mosquito samples.
- Assist with in-house disease testing of mosquitoes, birds and ticks
- Enter collection and testing data in the District's MapVision database program.
- Assist with upkeep of mosquito colony
- Light maintenance and laboratory clean up
- Other duties as assigned.

# **Compensation and Benefits:**

The salary range is \$26.00 - \$31.00 per hour, depending on experience. Hourly rate will be determined at time of hiring. Seasonal employees do not receive medical or other employee benefits; however they are entitled to paid District holidays and sick leave in accordance with state law. All legally required benefits are provided, including workers compensation

#### Contact

Inquiries should be directed to Angie Nakano, Laboratory Director at (650) 344-8592.

## **Application Process**

All applicants are required to submit a District employment application, available from: <a href="http://www.smcmvcd.org/employment">http://www.smcmvcd.org/employment</a>

Applications can be submitted in person, through the District website, or by mail or email to:

San Mateo County Mosquito and Vector Control District
Attn: Angie Nakano, Laboratory Director
1351 Rollins Road
Burlingame, CA 94010
anakano@smcmvcd.org

Please include a copy of your most recent California DMV Report (within the last 30 days, online report is acceptable) with your application.

## **Submission Deadline:**

04/05/2024, or until position is filled.
