Publication Notice of Intention to Levy Assessments:
Notice was published in The San Mateo Times on May 4th and May 11th.

Lab – Dead bird testing for West Nile virus has commenced. Twenty-five birds have been reported in the county. Four have been tested; none were found to be positive. Bi-weekly blood testing of our sentinel chicken flock began in April and will be ongoing through the summer. Angie Nakano updated the trustees with a handout on how to identify the desired birds that could carry WNV and the proper STATE phone number to call. She advised not to call the District as the District would still need to call the State.
Sewer Gas Monitoring: The district technicians just completed a training course on the monitoring for the presence of harmful gases and low oxygen levels in confined spaces. This is in response to an Occupational Safety and Health Administration (OSHA) requirement that sewer systems must be atmospherically monitored prior to entry.

Public Awareness: Our staff, Tina Sebay staffed a table at the Portola Valley Earth Day Fair in April. The district will have booths at the San Carlos Hometown Days in May, as well as the Foster City Art & Wine Festival and at the San Mateo County Fair in June. Chindi asked for information from the trustees regarding contacts with Beautification Groups that could possibly give the District another avenue for PR.

Operations – The technicians have done a great job with the control work of the marsh area this year.

Helicopter Treatment - The helicopter treatment dates are set for tule mosquitoes also known as cattail mosquitoes. Due to the sensitivity and limited access into these areas, such as Mills Field, Sharp Park and Searsville Lake, the only way to treat them is by the use of a helicopter. Weather permitting, the handed hour schedule would use the time window from 7 AM until noon.

Catch Basin Update – Catch Basin work has begun. About 3 seasonal technicians have started, and four more will be starting beginning July of this year.

Board Member Comments and Announcements
Robert Maynard – Annual Day at the Park in Brisbane will be held on October 7th, 2010
Robert Riechel- San Bruno just started their Sunday Farmers Market. Maybe we can set up a booth there
Tim Frahm – We now have a new Ad Commissioner
Larry Peterson – He would like the district to draft up a resolution to be given to Mr. Sullivan for his Barn Owl project
